THE JONES AND WILSON FIGHT IN THE STATE

AT LASGE.—Our readers at home are well in-formed of the quarrel in the Democratic party of this city, which, dating its rise far back in the past, has gathered its virulence and strength

dressing a rabbit, commences with the direction to "first catch your rabbit," they fight, and squabble, and blackguard, and revile each other, until they convince all impartial hearers that they at least fancy that the prize of the Senatorial seat for which they are contending, is certain to fall to the most accomplished assailant of the other.

But this disgraceful contest is not to be confined to Dubuque county. It will spread and is now spreading all over the State. It would do neither Mr. Jones or Mr. Wilson any good to have the Dubuque delegation "all right," unless they could likewise secure a majdrity of the mombers of the Assembly to be elected in the other counties of the State. Therefore, the contest of which we have been made witness in in Dubuque, will now be transferred to other

Ju assets. When we see men of undoubted ability going to the wall, we shall begin to believe that money "cannot be had on any scurity, at any price," but till then we beg to be excused from joining in any such notes of alarm. There has been money enough thus far to enable all solvent men to pay their debts (we speak now of Boston) and we have faith to believe that there will continue to be enough. For some small portion of it a high price has been paid, and for a time it will still be so, but the portion thus purchoused is but a very small part of the ums daily paid in. It is safe to say that three-fourths of our business men have ample means, and are not obliged to resort to brokers.—Houses Journal, 21st seaf. rayment invariably in advance.

They treated our citisens to a "taste of their quality" in the Terpsichorean line, which was in striking contrast with anything we had previously witnessed in "tripping the light fantastic co." BONNET MATERIALS,

PAAT turning up. The latest discovery is a specimen of sait rock handed us yesserday by Mr. Neitleton, clerk of the steamer Garvin. It was taken from a hill, or mountain of the same material, just discovered a short distance from the Mississippi river on the Missouri side, and about seventy-two miles from St. Louis. It is situated on Saline creek in Perry county, and almost on a line dividing that county from Sis. Genevieve county. Saline creek empties into he Mississippi river about three and a half-miles below St. Mary's landing.

The specimen before us resembles a piece of quart rock, and is a little mixed with a substance resembling iron ore. It has a pure sweet tuste, and when ground to powder is as white as any of the table salt now in general use. If we are not mininformed, this hill of salt will prove an immense speculation to its owners, and will cheapen the pr ce of that article very materially in this city.—St. Louis Den. end other MILLINERY GOOD. Mormonism in the City Explore.—We have already mentioned the demise of the Mormon now-paper published in this city. The Church has also been suspended. A consider able number of the "Saints" gathered together yesterday to attend the usual Sanday service at the accustomes place on Broome street,—but the doors were closed and the proprietor of the hall inforrated the crowd that there would be no more preaching there. The causes of this midden and singular movement were freely canvassed for conversation at the door, but no light whatever was thrown upon the subject. The Church evider dly does not thrive in this region.—N. Y. Thues.

From Laxe Superson.—The steamer Illinois arrived this morning from Lake Superior.
The weather on the Upper Lakes has been very boisterous and rainy. On Friday evening there was the beaviest blow of the season. The Government schooper Lamplighting was driven on the rocks near Isle Royal lighthouse, and became a total wreek. Her commander came down on the Illinois. Dr. Griswold and Poe had been for years enemies. Yet, according to the declaration of the former, the latter had magnanimously conded to him the task of acting as biographer and literary executor. To kick the dead lion under such circumstances was in the highest degree ungrateful and unjust.

And here we leave Dr. Griswold with the single remark, that while we have much charity for his fruitties as a man, we have none for errors and sins as a literatur.—New Orleans Detts. In the mean time the Doctor came, who examined him, and found that the dose taken was not sufficient to produce death and so informed the family in the presence of the patient. It would seem he determined from that moment to escape the family and friends present, and to finish up the effort at his life. He feigned a desire to sleep and be alone. The family withdrew to a near room, but in the prevalling stillness as slight noise was heard in his room, when on entering it he was found up and dressed and about starting for the back door. They asked him where he was going.—He said he had got to go out, one of the party accompanied him after taking away his knife, and he assuring them that he meditated no further violence to himself. By a most ingenious ruse he escaped his attendant, fled in the darkness where no trace could be found of him till next day at 12 o'clock, when he was discovered in some tall weeds in a vacant tot noar the lake, with an empty vial by his side and he too far gone for recovery. He died last night about 10 o'clock, after having the medical care of Drs. Ackley, Sterling. Coulan and Mathivett. He leaves an interesting family, and a large circle of friends to mourn his untimely end.—Cleveland Heraid, 11th and OUTH WATER ST., (DOLE'S NEW SCH EE PREPARED TO NEGOTIATI purchase and sale of Real State, Shocks, Sto GREAT BARGAINS Coal! THE CHICAGO PRESS OFFICIAL PAPER OF THE CITY. HURSDAY MORNING, SEPT. 94, 1857. anan and a Second Term. Mr. Hachanan and a Second Term-Mr. Hachanan, in accepting a nomination for the Presidency, very distinctly declared that ander no circumstances would be serve a second term. He may have been sincers in this deter-namtion at the time; or he may have cornid-ored such a declaration politic as tending to dis-cern the opposition of asystems to Presidential honors in the runks of his party. But, of common, he must have made the inental reserva-tion that he would hold himself in readiness to be sarrified for his com try's good, should the exignishes of his party require it. All reality see. We believe Mr. Buchanan has done excardinarily well for his party. Consenting to

We often hear doubts expressed as so the shilling of the British Government to crush the shelling in India. British India, we are told, ambraces a population of not far from a hundred and twenty-five millions, all lifelie to be infected with the mutiny, while the whole population of the United Kingdom does not number thirty millions, and are at the same time so far apparated from the nearest ports of the East india Company as to require a voyage of months to effect a communication. The show of horses this morning has increased and it is said that there are many more yet to come.

Extrese Houses.—"Ned Eclipse" is the name of a sine year old stallion of a fine make and appearance. He is a chestout sorrell sixteen hands and an inch high, and weights 1,100 lbs. He is a fine looking animal and attracted much notice. He is owned by C. A. Genoways, Woodford County.

"Young Morgan Eclipse" is the name of a spiendid two-year old bright bay stallion collected by Young Eclipse out of Chapt. Pugh's chestnat mare. He is owned by Sammel Powers, Macon County.

Farnca Houses.—"Napoleon" is the name of a six year old stallion—black, with an immense mass and tail, sad one of the most compact frames we ever saw on a borse. He was sired in Quebee by the old Freuch horse. "As poleon." and is now owned by J. B. Alien, Feorat County.

"Toby" is the name of a five year old English blood horse, which attracted considerable attention. He is clean limbed, with a beantfully shaped neck and body. He is owned by Levi Leonard, Seneck County, Ohio.

There are quite a number of "English blooded horses" on the grounds, but with one or two exceptions—which will be spoken of again—they are not worthy of nation.

Winnon Houses,—"Cosmodore Stockton" is the name of a chestratu sorrel stallon, four years old, fifteen and a half hands high, and of beantiful build and carriage. He was sired by "Windsor," and his grandsire is "Monmouth Relipse." He is essend by Peter Roberts, Morgan County,

Rarni's Letters from the State Pair. SECOND DAY.

Pensia Sept. 2—31 a. M., 1857.

This morning the sun broke through the lazy nist of Peoria Lake, and is shedding its mellow-

modified the chilliness, and we can now confidently anticipate good weather.

At an early hour this morning all was astir, as at 2 P. M. to-day the time for entry closes. A wast amphithenire is being creeted around the show ring, which will be capable of seating the multitude.

We hear the old story of delayed stock trains and the non-arrival of other articles of value. If people would give the raiseads more time we should hear man and cannot surrount impossibilities. We have made diligent inquiry, and thus far can come to no other conclusion than that the Railroad Companies have made praise-vorthy exertion to meet all the wants of the people is both freight and passengers.

ONE OF THE RESULTANDES OF EXERTITIONS.

This morning we made the effort to obtain notes of the remaining stock, but have succeeded but poorly. The system of suppressing the names of owners is one that we think contains a deal of humbur, is full of inconvenience, and of no practical utility. Were we to make the regulation we should placard the owner might add pedigree or such other information as he might choose. To suppose that by suppressing the name of the aminal, to which the owner might add pedigree or such other information as he might though a suppression that the suppressing the name of the owner you keep the committee in the progress of the age. We are to decide, is simply ridiculous. Just as though the committee were perfect ignorances, and only posted in the name, for which he has a numbered ticket. It is runsing at his pool information, and in decide them come out openily, the same hall he facts in the name, for which he has a numbered ticket. It is runsing at his pool information, and in addition the book of entries is handed them when they proceed to make their examination. Nine yearf old cow "Miss Shropshire," light roan, a fine animal and good milker. These year old cow "Roan," has bull calf. "John" by her side a sweek old, red roan, a fine animal. Mr. Jackson's stock are good blooded animals, but it is erideant they have not been fed in the rich clover pastures of Central Hinois, nor had five sceens to the flowing corn eribs of the rick rolling prairies of our fertile State; nor have they gone through the hands of our industrious grounsmen, who put the polish to the silky hair of such herds as those shows from Morgan and Rangaymon Counties.
